0 for this month but will do a steri day middle Jan 2019

Transport for drug collection, preparation, buying etc	2hrs
Transportation	46km

General

Outside the normal calls and clinics its been quite a restful month on the animal front.

There has been the normal 'lost', 'stray dogs' mostly holiday makers, a few complaints dogs fighting or mistreated but otherwise chilled.

We will be carrying out the first steri day of 2019 on 19 Jan – there will be a new CCS vet attending Marianne van der Mescht.

Responded to a complaint regarding fireworks being sold from a spaza shop in white city and sold to youngsters at that – went there chatted to them to ascertain it was happening then reported them to the SAP who followed up on it.

Responded to a complaint regarding dairy calves corner Mill and Kantoor – although i don't agree with the informal raising of dairy calves due to high mortality rates the conditions were just within the legal parameters.
